

Dentablast

Robust sandblasting machine for all areas of dental technology

Maintenance free allround circulatory sandblasting machine

- For the quick and easy removal of investment material and oxides from cast objects
- For abrasive material with a grain size of up to 250 µm
- No risk of blockage
- External central extraction unit or extractor connection possible (accessories).

Technical Data

Voltage	REF 094-530-00: 230 V, REF 094-531-00: 115 V
Frequency	50/60 Hz
Average power consumption	30 W
Compressed air connection	0 – 10 bar
Air consumption per hour	270 l at 10 bar, 150 l at 5 bar
Measurements (WxHxD)	330 x 570 x 410 mm
Weight	15 kg

Accessories

	Quantity	REF
Extraction unit (Required if there is no connection to an external central extraction unit possible)		094-550-00
Abrasive material (blasting medium): Aluminium oxide 99,6% = high grade corundum		
Grain size 50 (44 – 74 µm), white	4,5 kg	128-017-00
Grain size 100 (88 – 125 µm), white	4,5 kg	128-020-00
Grain size 250 (210 – 297 µm), white	10 kg	128-016-00
Grain size 250 (210 – 297 µm), brown	10 kg	128-011-00
Polishing beads, silicate		
Grain size 75 (50 – 105) µm	4,5 kg	128-211-00

Our dental technical advisors are available to answer any questions you may have.

Telephone +49 72 31 / 803-410.

Dentablast Duo

Robust sandblasting machine for all areas of dental technology

Maintenance free sandblasting machine with two abrasive material containers

- Separately adjustable pressure for both abrasive material containers
- For abrasive material with a grain size up to 250 µm
- A selection of 3 different nozzles
- External central extraction unit or extractor connection possible (accessories)

Technical Data

Voltage	REF 094-540-00: 230 V, REF 094-541-00: 115 V
Frequency	50/60 Hz
Average power consumption	30 – 100 W
Compressed air connection	0 – 10 bar
Air consumption per hour	136 – 160 l
Measurements (WxHxD)	340 x 470 x 480 mm
Weight	24 kg

Accessories
